

“IT Helpdesk technician”

Centre for Genomic Regulation (CRG)

The Institute

The Centre for Genomic Regulation (CRG) is an international biomedical research institute of excellence, based in Barcelona, Spain, with more than 400 scientists from 44 countries. The CRG shares principles of an interdisciplinary, motivated and creative scientific team that is supported by high-end and innovative technologies and a flexible and efficient administration.

CRG has been conferred with a badge of 'HR Excellence in Research' by the European Commission, in recognition to its progress in implementing the European Charter for Researchers and the Code of Conduct for Recruitment of Researchers, that among others consists of transparent, merit-based recruitment procedures and attractive work-life balance working conditions.

For further information: www.crg.eu

The role

The Helpdesk technician will be sharing with the other Helpdesk technician the responsibility of resolving user requests of any kind, both in-situ or remotely.

The main responsibilities are:

- Support to the users
 - User ticket resolution
 - Troubleshooting and administration of users
 - Installation and support of computer Hardware
 - Installation and support of computer Software
 - Support for meetings and rooms
 - Support of printers
 - Support of telephone lines and mobile devices
- Management tasks
 - Device inventory
 - Software inventory

About the department

The IT Department is responsible for providing IT services to over 500 users in two different locations (Barcelona Biomedical Research Park - PRBB and Barcelona Scientific Park - PCB). The department is divided in 3 areas; the Helpdesk team - responsible for the direct support to the user, the Systems Administration team - in charge of administrating all the IT systems and the Web team - responsible of the web development and support.

Whom would we like to hire?

- You have a minimum of one-year experience in a similar role, preferably in an international research and/or academic environment
